SOLUZIONI FOODSERVICE

Our 2.5x3cm silicone brush with plastic handle is an essential accessory for all cooking lovers! This refined kitchen tool, made with the experience of German industry, is ideal for distributing seasonings and marinades on your favorite recipes. Details that make the difference are its bristles reinforced with fibreglass, a reinforced material capable of resisting extreme temperatures, up to 220°C, allowing you to work across the board, in absolute safety. The handle is designed with a practical hole, convenient for hanging and storing neatly. But what makes this brush really special is its extreme cleaning convenience: the bristles are easily separable from the handle to guarantee efficient and deep cleaning. Plus, it's totally dishwasher safe, making cleaning operations even quicker and easier!
