SOLUZIONI FOODSERVICE

Discover the practical stainless steel pouring funnel, equipped with piston and support, an essential element for those who love to move around the stove with skill. Thanks to its ergonomic polypropylene handle, it is comfortable to use; the valve guarantees a perfect hermetic seal to work without waste. Includes 3 nozzles of different sizes (2.4 and 6 mm) to meet all your creative needs, from refined sauces to decorated desserts. This tool adapts with versatility both in the kitchen and in the pastry shop, allowing you to garnish your dishes, fill savory tarts, measure liqueurs into chocolate shells and much more. The funnel, 220 mm high and 190 mm in diameter, is made of stainless steel, a resistant material that is easy to clean, even in the dishwasher. Choose the version
