SOLUZIONI FOODSERVICE

- Rugged cast aluminum construction with anodized finish
- Parts in contact with food in food grade stainless steel.
- Quick and easy to clean.
- Rubber base that ensures a good grip on the work surface.
- Integrated cellophane disc holder

Indispensable for quickly packing hamburgers, they come out already wrapped in cellophane. The operation is automatic, with the sole pressure of the lever the meat is pressed, by bringing the lever back the hamburger comes out of the recess allowing it to be extracted, pressed and packaged.
