The Lock-Eat collection has been designed for food preservation taking into account the preservation techniques required by the various recipes.

It is possible to preserve: fruit, vegetables, jams and marmalades, jellies, syrups and fruit juices, etc...

The Food and Juice Lock-Eat containers have a lid that separates from the container, making them simple to use, compact in size and easily washable in the dishwasher.

The Lock-Eat containers are functional and suitable for an original table service of single-portion recipes and carafes for all kinds of drinks.

Lock-Eat containers are ideal because they are suitable for different preservation techniques:

- vacuum-packed (both for boiling and for hot potting)
- in oil
- pickled
- pickled
- in salt
- etc...
