SOLUZIONI FOODSERVICE

The cake ring mold is made of high quality stainless steel, safe, reliable and reusable.

It is ideal for cake making and easy to store.

It is a perfect mold for DIY cooking, baking, mousse cakes, pastry, brioche pastry, puff pastry and choux, the micro-holes allow air to circulate, for faster and more homogeneous cooking.

-Made of high quality stainless steel, high temperature resistant, corrosion resistant, not easily deformed, reusable, long service life.

-Very easy to clean and safe for oven and dishwasher.

-Excellent for baking, layering and forming cheesecake or fruit tart.

-Ventilation hole design: The molds have many ventilation holes and are evenly distributed and ventilated.
