CODICE: 002160050412

MARCA: SANELLI

The Sanelli Fish Scale Scraper, with stainless steel blade, is an indispensable precision tool for all kitchen professionals. This accurate 30cm long tool has been designed to offer an effective and quick solution to the annoying task of cleaning fish. The stainless steel of the blade guarantees resistance and durability over time, without sacrificing ease of maintenance. The main component of the tool, in fact, is resistant to rust and maintains the optimal edge for many preparations. But the real strength of this scraper is its ergonomic handle, designed to be gripped with safety and comfort. Shaped to fit your grip perfectly, it is made of sturdy plastic polymer with a particular non-slip embossed finish. This preserves stability during use, reducing the risk of accidents in the kitchen
