

STAINLESS STEEL EMBELLISHERS FOR PIZZA handle
cm.150 AC-SB

SOLUZIONI FOODSERVICE

CHARACTERISTICS:

- Useful head dimensions cm. 25 x 7.5
- 150cm handle.

Ember mover for cleaning professional wood-burning ovens in pizzerias, bakeries and restaurants. The specific shape allows you to move ash, wood and embers extremely easily. The steel (stainless steel or galvanized, depending on the model) makes the instrument extremely resistant to oven heat. The handle has an intermediate grip in a special high-density polymer, which is shock resistant and insulates the hands from heat.
