SOLUZIONI FOODSERVICE

With the white food-grade polyethylene pallet, transport all your kitchen utensils safely and robustly. This pallet has the resistance and reliability you need, with a static load capacity of 1800kg and a dynamic load capacity of 600kg. Finely constructed with high density polyethylene, it respects the healthiness of your food. Its generous dimensions of 80x120x13 cm make it ideal for every area of your kitchen. Equipped with 9 well-distributed support points, it guarantees stability and resistance.
