SOLUZIONI FOODSERVICE

The first vacuum machines that became widespread in shops (especially in delicatessens, butchers or delicatessens) were of this type.

Since then, food packaging machines have evolved over the years: our models have become more and more compact and cheaper, while offering higher performance; this thanks to constant research and twenty years of experience in the sector.

CHARACTERISTICS:

- Automatic VAS vacuum system for easy use
- Compact and robust
- In stainless steel
- Ideal for small bars
- Pack only in embossed or gusseted bags
- Maximum envelope width 420 mm (CVE-420)
- Dimensions 47x31.5x19h
- Bush Oil Vacuum Pump 4 m²/h
- 220 Volt single-phase
- Power 200W
- Weight kg.15

IT IS RECOMMENDED TO REPLACE THE PUMP OIL ON A YEAR (more if used intensively or with hot products)
