SOLUZIONI FOODSERVICE

This 18cm fork, designed by Wusthof, is an icon in the professional kitchen sector. Made of carbon steel through a unique forging process, it guarantees excellent strength and constant sharpness thanks to Wusthof's PEtec technology. The superior quality ergonomic handle made of synthetic material is carefully secured with rivets to ensure exceptional fatigue-free handling. The design of the fork prevents the formation of cracks between the handle and blade, ensuring perfect hygiene. Its finger protection collar increases safety of use. The special knife steel used, X50 Cr MoV 15, ensures optimal sharpening shape and corrosion resistance. Discover the superiority confirmed by the FGW cutting tests.
