

6 pcs. ROUND SMOOTH NON-STICK CAKE DIA. 10 cm

SOLUZIONI FOODSERVICE

CHARACTERISTICS:

- teflon-coated steel material
- PFOA-free non-stick coating
- temperature range -10° +190°
- can be used in the freezer - oven
- diameter cm. 10
- do not wash in the dishwasher

FIRST USE:

Wash the mold before using it for the first time.

CLEANING:

After each use, wash by hand with liquid detergents and dry the mold immediately after washing. Do not use sharp objects, abrasive powders or metal scourers which could scratch the surfaces.

USE TIPS:

Before baking, lightly grease the inside with oil, butter or margarine before baking. Before unmolding, leave to cool for a few minutes. The use of oven gloves is recommended.

PRECAUTIONS:

Avoid contact with direct heat sources or open flames.
