SOLUZIONI FOODSERVICE

CHARACTERISTICS:

- teflon-coated steel material
- PFOA-free non-stick coating
- maximum temperature +230°
- can be used in the freezer - oven
- diameter cm. 10
- do not wash in the dishwasher

Wash the mold before using it for the first time.

Lightly grease the inside with oil, butter or margarine before baking.

Before unmolding, leave to cool for a few minutes.

Hand wash with liquid detergents and dry the mold immediately afterwards.

Use only in traditional ovens (no microwaves).

Do not use sharp objects, abrasive powders or metal scourers which could scratch the surface of the moulds.

Avoid contact with direct heat sources or open flames.

Do not exceed the maximum temperature of 230°C.

PFOA-free non-stick coating.
