SOLUZIONI FOODSERVICE

Our black polypropylene pallet, ideal for safe shipping, is an indispensable element for your restaurant or professional kitchen. Equipped with asymmetrical feet, it offers the possibility of being drilled for anchoring. Made from regenerated polypropylene, it proves resilient and long-lasting. You can load up to 1000 kg in static states and 300 kg in movement, and it weighs only 3.2 kg: a practical and effective solution for transporting your kitchen tools in a great way.
