SOLUZIONI FOODSERVICE

The characteristics of the innovative multilayer material and PIAZZA's vast experience in the field of professional cookware are combined in the 3-PLY saucepan collection.

The result is a complete assortment, by type and size, of small diameter frying pans, designed to offer you absolutely excellent performance, without sacrificing practicality and manageability in any situation of preparation and service, in the kitchen or in the dining room.

CHARACTERISTICS:

- Thicknesses of 1.2mm with walls and handles designed to offer the maximum in terms of strength, durability and thermal conductivity.
- Can be used on any type of cooking plate (Gas, Induction, Electric, Vitroceramic) always guaranteeing optimal conductivity.
- Perfect ergonomics of the stainless steel handle allows for a safe and comfortable grip at all times.
- The profile of the weld of the handle and handles offers a guarantee of maximum tightness while the upper opening allows it to cool thanks to the passage of air; the open design also provides maximum hygiene during washing.
- Interior in 18/10 stainless steel, intermediate layer in aluminum, external layer in steel.
- Dimensions cm. 32X6
