

**DYNACUBE VEGETABLE CUBE complete with 1 grid kit
mm. 8.5 (orange)**

SOLUZIONI FOODSERVICE

Simple to use, ideal for quickly and effectively cutting foods such as vegetables, fruit for salads or cheeses into cubes, sticks or slices.

Perfect cubes in large quantities can be made very quickly thanks to the quickly replaceable chute and grates.

The Dynacube thanks to its patented system ensures a clean cut of vegetables, fruit and some cooked meats, as well as very delicate products such as tomatoes or soft fruit.

Ideal in pastry shops, ice cream parlors and catering for fruit salads, fresh fruit for decoration and variegations with fresh fruit, even very soft ones such as bananas, strawberries, kiwis, etc.

Ideal in catering for the tomato for bruschetta and garnishing dishes.

The Dynacube allows 3 types of preparations

- 1 - The cubes with the two grids and the blade knife
- 2 - The sticks (strips) with the two lower and upper grids
- 3 - The slices with the upper grill

Equipped with a measuring grid kit to choose from the available grids:

***** - ON REQUEST - *****
