# SOLUZIONI FOODSERVICE

Add convenience and style to your kitchen with our 6-compartment polypropylene cutlery insert, designed to optimize the space inside your dishwasher. Made of high quality materials, this insert is strong and durable, perfect for everyday use.

Featuring six distinct compartments, this insert allows you to easily organize your cutlery, preventing it from getting mixed up during washing. The intelligent and functional design ensures optimal cleaning, allowing water and detergent to circulate freely between cutlery for impeccable results.

The handy integrated handle allows you to easily handle the insert, making the process of loading and unloading from the dishwasher easier. Plus, polypropylene is a food-safe and heat-resistant material, giving you peace of mind during every wash cycle.
