

SENO&SENO RINSE AID TANK FOR DISHWASHER 5kg

SOLUZIONI FOODSERVICE

APPLICATIONS

SENO&SENO rinse aid is a liquid additive, concentrated acid, rinsing aid in dishwasher machines.

Its special composition promotes the immediate drying of crockery, glasses and cutlery, reducing the surface tension of the rinse water and making them shiny.

It is formulated for effective use even in very hard water, reducing encrustations due to limescale in the boiler.

ADVICE ON USE

Rinse aid can be used in all types of dishwashers in combination with automatic dosing and product concentration control equipment.

Dosage:

From 1 to 2 g/L depending on
