SOLUZIONI FOODSERVICE

Medium glass in shatterproof glass, extremely resistant to impacts, widely used in pubs, restaurants and pubs.

Ideal for serving water, wine, fruit juices and soft drinks.

The Bodega Collection created by Bormioli Rocco is characterized by its minimal design and simple, clean lines, ideal for everyday use and informal contexts, such as the wine bar. Technical characteristics of the Medium Bodega glass:

Glass treated with the technological tempering process which acts on its molecular structure makes the products particularly resistant to shocks and temperature changes and makes them optimal for intense, safe and repeated use over time.
