SOLUZIONI FOODSERVICE

Tempered glass salad bowl with edge by Arcoroc.

It is the classic glass bowl/salad bowl, round, with a rim in the upper part which is thicker than the remaining salad bowl.

This is for two reasons: to make it more robust and resistant to industrial washing and above all to make it stackable, a fundamental aspect in a bar, restaurant, trattoria or hotel.

This diameter measurement of 26 cm makes it perfect as a salad bowl for several people or a single salad. In the kitchen it is widely used for preparing doses of ingredients.

TECHNICAL FEATURES:

- Diameter cm. 26
- External height cm. 12
- Made in France
