

WOSDE TOBACCO REFRIGERANT LEATHER GLACETTE cm. 11X11

SOLUZIONI FOODSERVICE

The Glacette is an essential accessory on the table to always keep the wine, prosecco or any bubbles fresh throughout the meal.

It has become a must-have element on the table thanks to its refined and elegant design and is a valid alternative to the classic ice bucket.

Its small size takes up little space on the table, and its lightness allows it to be easily moved.

WOSDE REFRIGERATING GLACETTES

They are made of the special Wosde eco-leather, a light and easy-to-clean material. The imitation leather is in fact stain-resistant, oil-repellent and water-repellent.

The external covering hides two removable curved ice packs to be kept in the freezer until needed.

The package includes ice packs to insert inside which are practically infinitely reusable.

TECHNICAL FEATURES:

- ROCK colour
- Wiggle cm. 11x11
