MARCA: **WOSDE**

SOLUZIONI FOODSERVICE

Rectangular with not too pronounced rounded corners, it presents a classic and never banal look.

This menu holder is designed for the professional world and its characteristics are those desired and chosen by the professionals of hundreds of venues in Europe, including starred ones.

QUALITY

Certified and tested fabrics for intensive use, make WOSDE totally water-repellent, oil-repellent and stain-proof for all food substances.

Very easy to clean and sanitize with HACCP sanitizers to guarantee maximum safety for users.

The material is not photosensitive and therefore can be used both indoors and outdoors.

To the touch and sight, the sensation is of premium quality, this gives the table a look of luxury and modernity at the same time.

WASHING AND SANITIZATION

The WOSDE line has zero porosity, therefore it is water- and oil-repellent, but it is also stain-resistant towards all food substances. For this reason, a very quick sponge wipe will be enough to remove all traces of dirt, but that's not all!

Always, and even more so in this period, the customer must be guaranteed the maximum possible cleanliness, hygiene and safety.

We don't just clean with a sponge but thanks to the special surface treatment it can be sanitized with the HACCP sanitizers which are normally used in restaurant kitchens for the sanitization of steel worktops.

This is a real revolution that guarantees the end customer total and extreme product safety.

CUSTOMIZATION (on request)

A fundamental aspect in using the WOSDE line in a venue is being able to customize it by heat embossing your logo. This embossing process creates a unique (3D) relief effect and will amaze all customers with its attention to detail.

Even a little advertising return doesn't hurt and for this reason in the social media era in which we live the media "tam tam" of photos in the premises and of the dishes served will always be accompanied by our elegant branded placemat, providing an automatic return of image and advertising.
