CODICE: **0710023599881**
MARCA: **3M SCOTCH-BRITE**

SOLUZIONI FOODSERVICE

It is a fiber with a very open structure ideal for operations to remove light encrustations, it is made up of a resistant, spiral purple fiber sprinkled with non-aggressive abrasive particles.

It can be used wet or dry to remove light encrustations on many surfaces such as: cookware/kitchen equipment/crockery, floors, stainless steel, worktops, metal, porcelain.

Delicate, safe and hygienic, the alternative to stainless steel scourers.

Main features

High quality abrasive fibres.

Easy rinsing of fiber from food residues.

Strong abrasive power, up to 10 times more resistant than traditional abrasive fibres.

Certified by HACCP International as "Safe in the food sector" and "Suitable for use".

Scotch-Brite 2020 Heavy Duty Abrasive Fibers feature gentle abrasive particles, which offer excellent cleaning power.

TECHNICAL FEATURES:

- Dimensions 11.4x7.1x1.2 cm
- Recommended applications: daily cleaning of kitchen utensils
