MARCA: **3M SCOTCH-BRITE**

SOLUZIONI FOODSERVICE

The Scotch-Brite™ 96HEX-FL sponge laminate is a three-layer solution, for heavy-duty and medium-duty applications.

It has an abrasive yellow side with "Power Dots", specially developed to quickly remove encrusted dirt, and a green side that eliminates small food and grease residues for clean and shiny surfaces.

The synthetic foam sponge placed in the center collects water and detergent to facilitate cleaning.

Hexagonal shape designed to fit perfectly in the hand; it does not have to be cropped.

The extra corners help clean hard-to-reach areas.
