- Basket mm. 500x500
- Useful loading height mm. 470
- Three-phase 380V power supply. 9.7 kW
- Equipment: 1 dish basket, 1 universal basket, 1 cutlery basket.
- Double-walled AISI 304 stainless steel construction with insulation for effective energy saving and silence.
- Molded tub with rounded corners to avoid dirt deposits.
- Balanced and insulated soft top with innovative lifting system with stainless steel handle on 3 sides.
- Stainless steel impellers / Triple stage filtering system with integrated drain pump easily inspected by the user.
- Intuitive electronic interface with soft touch controls.

Simple to use, Smeg hood dishwashers offer an absolute guarantee of hygiene for all types of crockery, from plates to fine glasses and cutlery. In addition to the standard 50x50cm, Smeg hoods allow the use of special baskets with 24 dishes measuring 60x50cm, thus reaching a production of over 1700 dishes/hour. Furthermore, thanks to careful design, the traditional external handles are replaced by an innovative front handle while the hood lifting elements are placed inside the backrest to recover the useful volume of the internal tub with the same external dimensions.
