SOLUZIONI FOODSERVICE

CHARACTERISTICS:

Dimensions mm. 630x715 H2085

TEMPERATURE -18/-22°C

MOD. A50/1B - COMPLETE WITH 3 GRILLES mm. 420x530

- External/internal AISI 304 stainless steel
- Insulation thickness mm. 75
- Rounded internal corners.
- Adjustable stainless steel feet.
- Reversible doors with 105° stop
- Replaceable magnetic seal.
- LED lighting
- Lock with key.
- Tropicalized condensing unit.
- Ventilated refrigeration.
- Evaporator treated by cataphoresis.
- Automatic defrost and automatic condensation evaporation.
- Electronic thermostat.
- Energy class C.

Elegant and refined design.

The elegant design with rounded external corners, the easy and intuitive control panel with flush-mounted keyboard and the high attention paid to the finishes give the MASTER wardrobe a solid and refined appearance.

The monocoque structure with insulation thickness of mm. 75 is made of top quality AISI 304 stainless steel. The high efficiency and low consumption compressors complete a picture of excellence, making the MASTER cabinet suitable for the most intense use.
