SOLUZIONI FOODSERVICE

The Pintinox USE&REUSE cutlery series is the ecological alternative to disposable cutlery. The Happy Hour series from the USE&REUSE family, made from a sheet of stainless steel, is perfect for aperitifs and parties.

Thanks to the characteristics of the steel they can be washed and reused several times. They are light, do not break or bend during use.

Use&REUSE cutlery/straws are entirely made of stainless steel, a 100% reusable and recyclable material.

They are designed to guarantee resistance and functionality and to optimize the production phase, in which the smallest possible quantity of raw material is used.

The particularly competitive price makes them a concrete alternative to disposable plastic ones, with the notable advantage of being able to be washed and reused endlessly.

The USE&REUSE are part of the Pintinox collection, the company's reference line characterized by certified materials and a wide choice of models.

Use and maintenance

The cutlery from the USE&REUSE collection is suitable for washing in the dishwasher.

Wash the product immediately after use.

Wash with suitable detergents, avoiding chlorine-based products and bleaches.

Dry thoroughly after washing.

Carefully remove residues of salt, lemon, vinegar, tomato-based sauces and do not use abrasive cloths or metal wool.

Packaging

The straws + pipe cleaner are sent in a transparent Pintinox branded box.
