SOLUZIONI FOODSERVICE

KNIFE CASES

CARAVEL model is the new line of airtight suitcases, with an innovative design and made of 100% recycled plastic, designed and dedicated to HO.RE.CA.

Lightweight and resistant to impacts, splashes and dust, CARAVEL suitcases are ideal for catering professionals on the move.

The compact chef suitcase by Sanelli Ambrogio. light body and ergonomic handle make it practical and comfortable to carry

RESISTENCE:

This suitcase is made of sturdy 100% recycled plastic, for greater impact resistance

SAFETY

The double diced foam system, the hermetic seal and the automatic pressurization valve best protect the accessories inside

The provision for the padlock and the safety closures with button are ideal for an airtight and safe closure

AMBROGIO SANELLI: Since 1864 it has combined tradition and innovation in the production of professional knives, using the best steels and the most modern laser control sharpening technologies

The empty CARAVEL suitcase is ideal for storing your favorite knives and kitchen accessories and always carrying them with you.

The internal diced foam system allows you to customize them according to your needs and guarantees that the contents always remain stable even in the most arduous transport conditions.
