

STAINLESS STEEL SPAGHETTI SPRING cm.23,5

SOLUZIONI FOODSERVICE

Piazza springs have always been a point of reference for the market, both for the design and for the effective superiority of an essential product in the collection of every professional.

The details highlight the uniqueness of each single spring: the curvature of some applications, such as the spaghetti spring, as an invitation to collect food better, the spring system which always gives the same handling even after an infinite number of pressures, thanks to a exclusive production and still reserved today, like the formulas that have resisted any attempt at imitation for years. Precisely this security allows only Piazza to guarantee the inalterability of its springs.
