SOLUZIONI FOODSERVICE

The ASEPT Fifo portioning pump dispenser set is an ideal product for the hygienic and controlled dispensing of sauces and condiments in commercial environments such as snack bars, restaurants, sandwich shops and other similar establishments. Here is a detailed technical description of the product:

Set components:

2 dispensers with base

2 Fifo bottles of 710 ml

Piston to adjust the dosage quantity

Main features:

ASEPT dispensers offer a universal solution for sauces and condiments through the use of refillable bottles.

The Fifo dispenser guarantees a fluid, hygienic and constant dosage of sauces and condiments.

The FIFO BOTTLE bottom dispensing design ensures proper rotation of food, reducing waste and allowing for faster dispensing.

Thanks to gravity, the sauce is pushed towards the valve, eliminating the need to bang bottles on the counter and ensuring that the sauce is always ready for dispensing.

Ideal for use in commercial environments where snacks, salads and sandwiches are prepared.

Maximum ease of use:

The ‘First in, first out’ system guarantees the correct rotation of food.

The Fifo dispenser is simple, fluid and easy to use, allowing you to dose sauces with a simple hand movement without having to squeeze and shake the bottle every time.

The standard dosing amount is 18ml, but with the optional plunger set you can adjust the dosing amount to 5 and 10ml.

Tidy and hygienic:

The ASEPT Fifo dispenser set keeps refillable bottles tidy and hygienic on your buffet or countertop.

Both dispensers and bottles meet NSF criteria, ensuring high food safety standards.

Advantages of the Fifo dispenser:

- Easy and smooth operation.
- Consistent portion control.
- Easy to fill and change.
- Watertight and drip-proof, ensuring cleanliness and hygiene.
- Sustainable thanks to frequent reuse.
- Easy and complete disassembly and cleaning.
- Dishwasher safe (except base plate with holders).
- NSF certified to ensure food safety.
- This dispenser set is designed to offer convenience, hygiene and optimal portion control when dispensing sauces and condiments in commercial settings.
