SOLUZIONI FOODSERVICE

Designed to offer an easy and refined seasoning experience.

Here are some technical details:

- Lever dispensers: These lever dispensers are built to be intuitive and easy to use.

Simply press the lever gently to dispense the desired condiment, ensuring accurate portioning and no waste.

- Adjustable dosage:

The set offers the flexibility to adjust the seasoning dosage from 25 to 40 grams, allowing users to customize their seasoning preferences.

- 2.5 liter plastic containers:

Each set includes high-quality plastic containers with a capacity of 2.5 liters for condiments.

These containers are designed to be sturdy and durable, ensuring optimal storage of condiments.

- 2-piece design:

The set consists of two main parts for greater convenience and ease of use.

The drip-free spout ensures a controlled flow of seasoning without unwanted spills or splashes.

- Versatility of use:

This set is ideal for measuring out a variety of dressings, sauces and dips, offering a wide range of options to enrich dishes with delicious flavours.

In summary, the Set combines advanced functionality and elegant design to offer an impeccable and refined seasoning experience.
