SOLUZIONI FOODSERVICE

The pack of 6 RATIONAL Care rinse aid cartridges is specially designed for Rational iCombi Pro ovens equipped with the innovative iCareSystem AutoDose system. This revolutionary system offers a fully automated and programmable washing experience, optimizing efficiency and ensuring exceptional cleaning results.

Compatibility with iCombi Pro: The cartridges are specifically designed to be used with iCombi Pro models (excluding 20 tray models), ensuring perfect synergy with the iCareSystem AutoDose washing system.

iCareSystem AutoDose System: This system allows for completely autonomous and programmable washing. With iCareSystem AutoDose, each wash cycle can be started according to a pre-established program, ensuring precise dosing of the necessary rinse aid directly from the integrated dispenser.

Efficiency and Safety at Work: Thanks to the precision of the dosing and the programmability of the system, iCareSystem AutoDose helps to improve safety at work, reducing the risk of errors and guaranteeing consistently high cleaning results.

Time Saving: Automating the washing process saves valuable time, freeing up resources for other critical tasks in the professional kitchen.

Compliance with HACCP Standards: By using the iCareSystem AutoDose system, you ensure compliance with the HACCP system standards for food safety, thus helping to protect the health of consumers and avoid potential health risks.

Active Limescale Prevention: In addition to cleaning and sanitizing, the system actively contributes to the prevention of limescale formation, prolonging the life and efficiency of the Rational iCombi Pro oven.
