SOLUZIONI FOODSERVICE

Main Features:

- Perforated Design: The basket is equipped with numerous holes evenly distributed across the surface, ensuring excellent water drainage. Ideal for draining, cleaning and washing foods such as fruits, vegetables, pasta and other culinary ingredients.
- Sturdy Handles: The basket is equipped with two ergonomic stainless steel handles, designed to make it easy to grip and carry, even when the basket is full.
- Support Feet: At the base there are support feet that raise the basket, improving the airflow and allowing the water to drain quickly, avoiding stagnation.
- Resistance and Durability: Made of corrosion-resistant stainless steel, the basket guarantees a long life over time, even under conditions of intensive use and frequent contact with water and food substances.

Use: Perfect for use in the kitchen to drain pasta, wash fruit and vegetables, or handle food in complete safety and hygiene.

Maintenance: Easy to clean, dishwasher safe. Resists high temperatures without deformation.

Material: High quality stainless steel
