SOLUZIONI FOODSERVICE

Discover the electric chafing dish designed by renowned Dutch designer Robert Bronwasser, a perfect fusion of aesthetics and practicality. This elegant accessory for catering and events stands out for its advanced features and sophisticated design.

Main Features:

- **Elegant and Functional Design:** Created by Dutch designer Robert Bronwasser, this chafing dish combines modern aesthetics with unparalleled functionality.
- **Durable Polypropylene Body:** Made of high quality polypropylene, high temperature resistant, ensures durability and safety in use.
- **Removable Container GN1/1 (H)100 mm:** Made of AISI 304 stainless steel, this container is easy to clean and maintain, ensuring hygiene and practicality.
- **Stainless Steel Heating Element:** Placed in the water container, the AISI 304 stainless steel heating element offers highly efficient heat transfer.
- **Tempered Glass Lid:** Featuring an insulated handle, center notch and aluminum hinge, the two-piece lid reduces heat loss and maintains optimal hygienic conditions.
- **Integrated Card Holder:** For impeccable presentation, the lid includes an integrated card holder for product labels.
- **Digital Control Panel:** The digital display allows you to view the operating time, set temperature and actual temperature. The last temperature setting is memorized and automatically reused when turned on.
- **Temperature Adjustment:** Set the temperature from 35°C to 85°C in 1°C increments to suit your specific needs.
- **Water Container with Fill Indication:** Engraved with a max fill line (.4L), makes it easy to fill and manage the water level.
- **Use for Heating Only:** This chafing dish is not designed for cooking, but only for keeping food warm and ready for serving.

Dimensions: mm. 607x402x H245

Choose the Robert Bronwasser electric chafing dish to combine style and functionality, ensuring that every event is a success.
