

**DOUBLE SPRING COCKTAIL STRAINER - WITH DOUBLE SPRING - IN STAINLESS STEEL**

Stainless Steel Cocktail Strainer Filter with Double Spring

# SOLUZIONI FOODSERVICE

The Stainless Steel Double Spring Cocktail Strainer is an essential accessory for any bartender, whether professional or amateur.

Designed to provide an optimal mixing experience, this strainer is crafted from high-quality stainless steel, ensuring durability and corrosion resistance.

The double spring design is designed to maximize filtering efficiency, ensuring that liquid is precisely filtered, while solid ingredients are retained.

The two spiral springs, located on the sides of the main body, open and close to adapt to different filtering needs, allowing the bartender to adjust the pressure applied to obtain perfect results in every preparation.

Main features:

- High Quality Material: Made of strong and durable stainless steel, ideal for long time use.
- Double Spiral Spring: The two springs ensure an airtight seal and precise control during filtering, minimizing liquid loss.
- Versatility of Use: Perfect for various filtering techniques:
  - Fine Filtering: Ideal for delicate cocktails such as sours or fizzes, preserving the texture and flavour without alterations.
  - Coarse Filter: Great for more robust cocktails like tiki or punch, allowing for effective filtering without affecting the drink's body.
  - Ice Strainer: Effective at separating ice from shaken or stirred cocktails, ensuring a clean drink presentation.
- Ergonomic Design: Comfortable and balanced handle, makes it easy to use even during long work sessions.

Dimensions: cm.18x8

Weight: g100

Care and Maintenance: Dishwasher safe. To preserve the shine of stainless steel, it is recommended to dry immediately after washing.
