

**MULTILAYER STAINLESS STEEL PAN MANTECARE AGNELLI1907
1 HANDLE cm. 24x9.5**

Multilayer stir frying pan - Aluinox - 1 handle Agnelli1907 - Diameter 24

SOLUZIONI FOODSERVICE

Material: Aluinox 3ply (3 layers)

Structure:

- Core: Aluminum for fast and even heat distribution.
- Outer Layers: Stainless steel, which ensures resistance, durability and ease of cleaning.

Thickness: 2.3mm

Handle: Stainless steel, heat resistant, designed for a secure and comfortable grip.

Compatibility:

- Induction hobs
- Gas
- Radiant Electrics

Characteristics:

- Excellent heat conduction: Aluinox 3ply technology ensures uniform and precise cooking.
- Versatility: Suitable for different types of hobs.
- Easy to clean: The stainless steel surface is resistant to stains and scratches, making cleaning quick and easy.
- Application: Ideal for stirring risottos, pasta and other culinary preparations that require uniform cooking.
