SOLUZIONI FOODSERVICE

Dimensions:

- Width 40 cm
- Depth 70 cm
- Height 90 cm

Technical Description:

Tank capacity: 30 litres

Materials:

- Worktop and front panels in AISI 304 stainless steel
- Pressed tank with wide rounded edges in AISI 316 stainless steel, to ensure maximum resistance to corrosion

Features of the tub:

- Perforated bottom that distances the baskets from the bottom of the tub
- Protection of the electrical resistances integrated into the bottom of the tank
- Large diameter overflow system for the elimination of excess starches during cooking

Drain: Ball drain tap, with heat-insulating handle located inside the compartment

Base: Cabinet base with 20/10 thick door and printed handle

Feet: Adjustable to ensure maximum stability

Power supply: Electric

The pasta cooker is ideal for professional use in large kitchens, with a robust structure and high-quality materials to ensure resistance and durability over time.
