

**BERTO'S 4 BURNERS GAS COOKER MACROS 700 LINE
ON OPEN BASE DIM. cm.80x70x90H**

SOLUZIONI FOODSERVICE

Dimensions:

- Width 80 cm
- Depth 70 cm
- Height 90 cm

The 4-burner gas cooker from Berto's Macros 700 line is designed to ensure high performance and durability in professional environments.

Materials

- The worktop and front panels are made of AISI 304 stainless steel, a corrosion-resistant and easy-to-clean material, ideal for intensive use in the kitchen.
- High-power burners: Equipped with nickel-plated cast iron burners guaranteed for life, with single and double crown for optimal heat distribution. They are operated by a valved tap with safety thermocouple and pilot light, for precise control and maximum safety.

Cast iron grates:

Sturdy cast iron grates offer stability and durability over time.

Removable basins:

Easily removable to simplify cleaning and improve daily hygiene.

Adjustable feet:

The open base version is equipped with adjustable feet, allowing you to adapt the height of the kitchen to the needs of the worktop.

This gas cooker represents an ideal solution for those looking for efficiency, robustness and ease of maintenance in a professional catering environment.
