CHARCOAL STAINLESS STEEL BRIDGE BASE FOR BUFFET

SOLUZIONI FOODSERVICE

Dimensions: cm. 55.7x34.8 H37.8

This charcoal bridge base is a sturdy and versatile accessory, perfect for buffets, hotels, restaurants, and outdoor events. Designed to withstand heavy use, the powder-coated stainless steel construction ensures durability and resistance even in the most demanding conditions.

Material and Structure:

- Powder Coated Stainless Steel: The charcoal powder coat finish not only offers a modern and elegant finish, but also superior protection against scratches, corrosion and wear.
- Durable Construction: Designed to withstand heavy use, the base is ideal for supporting various types of buffet accessories, both indoors and outdoors.

Design and Functionality:

- Bridge Design: The bridge shape allows for excellent space management, allowing you to place other accessories or decorations both above and below the base, optimizing the available area on the buffet.
- Elegant Finish: The charcoal color adds a sophisticated and modern touch, perfect for integrating with various presentation and decor styles.

Versatility of Use:

- Ideal for displaying plates, trays and containers, this base can be used in a wide range of contexts, from breakfast buffets to receptions or outdoor events.
- Weatherproof, it is suitable for both indoor and outdoor use, maintaining its beauty and integrity even in outdoor environments.

Ease of Maintenance:

Thanks to its smooth and resistant surface, the base is easy to clean and requires minimal maintenance, ensuring a long life over time.

This charcoal bridge base is the perfect accessory for creating elegant and well-organized presentations, with the security of a solid and resistant structure.
