SMALL STAINLESS STEEL INTERLOCKING TRAY FOR CALEIDO LINE BASES

SOLUZIONI FOODSERVICE

Dimensions: cm. 20x8 H5

This practical stainless steel interlocking tray is the perfect accessory to complete the bases of the Caleido line, offering a convenient support space for utensils and small containers during buffet service. Ideal for functional and tidy use in environments dedicated to breakfasts and buffets, this tray is designed to be resistant and versatile.

Material and Structure:

- High Quality Stainless Steel: The tray is made of stainless steel, ensuring long life and wear resistance, even in environments with frequent and intense use.
- Interlocking System: Designed to be easily interlocked with the steel bases of the Caleido line, it offers perfect and safe integration for the organization of spaces in the buffet.

Features and Design:

- Ample Storage Space: With a compact yet spacious size, this tray is perfect for storing spoons, serving utensils, small jam jars and other accessories needed for a well-organized breakfast or buffet.
- Elegant and Functional Design: The minimalist and elegant stainless steel look fits perfectly with any buffet style, giving it a professional and clean touch.

Versatility of Use:

- Ideal for breakfast rooms, hotel buffets and events, this accessory adds a level of convenience and order to the service, keeping everything within easy reach for customers or staff.
- Suitable for use with bases from the Caleido line, it is perfect for optimising spaces and better organising the utensils and small accessories needed for the buffet.

Strength and Durability:

- Stainless steel ensures high resistance to corrosion and impact, making this nesting tray a reliable choice for everyday use in high-traffic environments.

Ease of Maintenance:

Easy to clean and maintain, the smooth stainless steel surface allows for quick cleaning, always maintaining a flawless and hygienic appearance.

The large interlocking stainless steel tray for Caleido base is the ideal solution for those who want to add functionality and order to their buffets, with an elegant and practical design that integrates perfectly with the bases of the Caleido line.
