

NON-STICK VENTILATED PLATE FOR SANDWICHES TOASTIX
size cm. 46x40x25h single phase 1800 w

SOLUZIONI FOODSERVICE

A combination plate, multiple uses: from toast and sandwiches to pizzas and croissants, the ideal solution for your restaurant.

The versatility of Toastix offers an unprecedented culinary experience. Thanks to its comfortable handle it can be used as a plate for toast, sandwiches and vegetables, as an oven for pizza or bruschetta and to heat sweet and savory baked goods.

Its practical closing system allows for uniform heat distribution, optimizing the cooking process. With the Grill option, you can control the temperature of the plates for impeccable results.
