SOLUZIONI FOODSERVICE

Designed for convenience and style, this swivel column is crafted from high-quality, durable chrome-plated brass. Its overall height is 700mm, with a tap spout length of 250mm and a spout height of 605mm, providing ample reach for a variety of applications.

The single-hole tap, compatible with fixing holes with a minimum diameter of 30 mm and a maximum of 32 mm, can be oriented together with the column, making it ideal for installations that require versatility.

High performance is guaranteed by a maximum cold water flow rate of 22 L/min at a pressure of 3 Bar, with a maximum working pressure of 5 Bar. The tap's flexible hose connection is of the G1/2" type, offering compatibility with a wide range of systems.

With a net weight of 3.1 kg, this column represents a robust and functional choice for those looking for a high-performance, orientable tap suitable for multiple needs.
