SOLUZIONI FOODSERVICE

The Doccione Group Mod. Jolly is a versatile and functional solution, designed for professional use in kitchens and intensive work environments. This model combines a single-hole mixer with a central adjustable tap, offering maximum control and convenience during use.

Main features:

- 1/2" herringbone design, ideal for ensuring optimal and continuous water flow.
- Short tap with ease of use and easy access.
- Additional tap with 200 mm long swivel arm, for greater flexibility and versatility in washing operations.
- 950 mm high Jolly shower, perfect for ensuring a wide and complete range of action during pre-wash or rinse operations.
- Black plastic parts and chrome-plated brass body, for a combination of strength, durability and elegant design.

This shower group is perfect for those looking for a reliable and long-lasting solution, capable of meeting the daily needs of any kitchen or professional system.
