

INDUSTRIAL PEDAL MIXER WITH LOCK LEVER

Pedal Mixer with Opening Lock, Double Valve, Yellow Brass

vedi prodotto online

CODICE: 052150360

SOLUZIONI FOODSERVICE

This pedal mixer is a practical and hygienic solution for water control, ideal for professional environments. Made with a sturdy yellow brass structure, it is equipped with a double valve and stainless steel levers to ensure resistance and longevity. It can be suspended or floor mounted, using the optional bracket art. S/IND supplied on request.

Operation:

- Pressing the pedal activates the water supply, which can be cold, hot or mixed, with the possibility of blocking the flow at various stages.
- A second press of the pedal unlocks and closes the water supply.

Technical Specifications:

Length: 345 mm

Width: 170 mm

Fixing hole diameter: M6

Attacks: G."

An excellent choice for those who want a touchless solution, improving hygiene and water control in work areas.
