

SHOWER GROUP WITH RAISED TWO-HOLE MIXER TAP FOR LARGE SYSTEMS

vedi prodotto online

SOLUZIONI FOODSERVICE

The Two-Hole Dishwasher Sprayer is designed to provide efficiency and convenience in professional work environments such as restaurant kitchens or canteens. With a swivel faucet and single-lever mixer, this sprayer provides precise control of water temperature and flow.

Main features:

- 360° rotatable for maximum flexibility during use.
- Quick and easy wall mounting.
- Easy to clean thanks to its chromed metal structure.
- High quality: Made of durable materials, with a flexible and stable spring and an AISI 304 stainless steel tube.
- Ergonomic plastic handle for comfortable use.
- Strong and durable, ideal for intensive use.

Technical specifications:

- Threaded connection: 3/4"
- Height: 100 cm

Perfect for improving productivity in the kitchen thanks to its reliability and durability.
