SOLUZIONI FOODSERVICE

The Clinical Lever Mixer Mod. Rialzato Biforo is designed for large systems, offering robustness and practicality in professional environments. Equipped with a 250 mm cast delivery spout, it guarantees an optimal flow rate of 20 L/min at 3 bar, ideal for high intensity operations.

Main features:

- Chrome plated brass body, corrosion resistant and long lasting.
- 250mm cast spout, for a wide and even flow of water.
- \varnothing 3/4 mm connections, compatible with professional systems.
- 155 mm hole spacing, for safe and stable mounting.
- Drilling template \varnothing 27 mm, for precise and simple installation.
- Maximum flow rate of 20 L/min at 3 bar, suitable for managing large volumes of water efficiently.

This mixer is the ideal choice for large systems, where robustness and reliability are essential.
