SOLUZIONI FOODSERVICE

THE CUBE

A hollow cube, with a large cooling surface, for rapid cooling of liquids.

With a simple and essential shape, it guarantees extreme flexibility of use.

Soft drinks, cocktails, coffee and/or other preparations that need to be quickly refreshed will find a perfect ally in the hollow cube of the Coco series.

The paddle technology allows the installation and proper functioning of the machine even in the presence of hard water.

The Coco series is the most versatile for any type of installation.

THE MACHINE

Modern design with rounded corners and body entirely in stainless steel.

The paddle production system, with a stalk evaporator, is the only system capable of guaranteeing the correct functioning of the ice maker even in the presence of particularly hard water, rich in limestone and impurities.

CHARACTERISTICS:

- LARGE BUILT-IN STORAGE CAPACITY
- AUTOMATIC WASH
- REMOVABLE FRONT FILTER
- FRONT AIR INLET AND OUTLET
- CAPACITIVE TOUCH STAND-BY AND RESET
- POWER CORD WITH SCHUKO PLUG

TECHNICAL DATA:

- Dimensions (WxDxH): 400 x 545 x 690 mm
- Voltage: 220-240/1/50Hz
- Production kg/24h: KG.23
- Storage capacity: 10 kg
- Net weight: 33 kg
- Refrigerant Gas: R290
