CODICE: **0700027561200**

The Rectangular Stainless Steel Container with Lid (20.2 x 15.4 x 7.2 cm) is a versatile, high-quality solution for safe food storage, designed for those seeking practicality and durability.

 Main features:
 - Leak-proof and Anti-Spill Design: The polypropylene (PP) lid, with leak-proof tab closure, ensures food stays fresh longer, preventing accidental spills.
 - High-quality material: Made of SS304 stainless steel, it is highly resistant to oxidation and bacteria, providing maximum safety for food storage.
 - Eco-friendly and safe: The lids are BPA free, ensuring that storing and heating food is completely safe for your health.
 - Microwave Safe: You can reheat your meals quickly without compromising the quality of the food or the integrity of the container.
 - Resistant to low temperatures: Ideal for storing food in the freezer, it resists up to -40°C without risk of deterioration.
 - Oven safe: Usable up to 400°C, you can heat or cook directly in the oven without having to change containers.
 - Easy to clean: Dishwasher safe, making maintenance quick and easy.
 - Space Saving: Stackable design allows you to optimize space in your kitchen, cabinet or pantry.

 Perfect for any storage need, this container is an eco-friendly and functional choice for any modern kitchen.
