SOLUZIONI FOODSERVICE

The Hendi 3500W Induction Hob is a highly efficient professional cooking tool, ideal for commercial kitchens and workspaces that require fast and precise performance. Thanks to its digital touch screen interface, it allows intuitive control of power, temperature and timer, to ensure perfect cooking results.

Main Features:

- Power: 3500W, for fast heating and immediate response to power regulation (high-low).
- Touch Screen Interface: Digital adjustment of power, temperature and timer, with a modern and easy-to-use interface.
- Stainless Steel Construction: Sturdy and corrosion resistant, ideal for daily and intensive use.
- Suitable for Pots: Compatible with pots with a diameter of 140 to 280 mm, ensuring versatility in preparation.
- Removable Grease Filter: Equipped with a grease filter that is easy to remove and clean, to maintain maximum efficiency over time.
- Double Ventilation: Improves cooling and durability of the plate during intensive cooking.

Technical Specifications:

- Dimensions: 34x44x12 cm, compact and easily positioned in any work environment.
- Adjustable Height: Thanks to its 4 adjustable feet, it can be adapted to different height needs.
- Maximum Oven Load: Supports a maximum weight of 20kg, making it suitable for even the heaviest pans.

The Hendi 3500W Induction Hob offers a perfect combination of speed, precision and ease of use, making it an indispensable tool in every professional kitchen.
