HENDI UNIQ Soup Kettle – 8L, Green, Modern and Functional Design

SOLUZIONI FOODSERVICE

The HENDI UNIQ Soup Kettle combines elegance and functionality, making it perfect for buffets, catering and professional catering. Designed by renowned Dutch designer Robert Bronwasser, it stands out for its modern design, ease of use and efficient seawater heating, which prevents overheating.

Main features:

- 8 litre capacity, ideal for keeping soup warm for a long time.
- High temperature resistant polypropylene body, lightweight and easy to carry.
- AISI 304 stainless steel soup container, removable and easy to clean.
- AISI 304 stainless steel heating element immersed in the water container for optimal heat transfer.
- Tempered glass lid with insulated handle, aluminum hinge and two-part opening to reduce heat loss.
- Integrated card holder on the lid for product label.

Advanced technology for precise control:

- Digital control panel with display showing:
 - Operating time
 - Set temperature
 - Actual temperature

Built-in memory: The last temperature setting is automatically saved.

Temperature regulation from 35°C to 85°C, in 1°C increments.

Water level indicator with max. fill line (1.5 L).

Note: The kettle is intended for heating only, not cooking.

Perfect for those looking for an elegant, efficient and easy-to-use kettle, the HENDI UNIQ guarantees impeccable service in any professional context.
