MONOFASE 220V 1,8 kW**

HAMILTON BEACH TANGO PROFESSIONAL BLENDER

# SOLUZIONI FOODSERVICE

Discover the benefits of the product

Good to know: The pulse button is used when you need short bursts of power at the optimum speed. It can be used, for example, for an extra burst of mixing at the end of a mixture to make it creamier. .

The barista's Wave Action System is a true game changer. This innovative system repeatedly pushes the contents of the bowl towards the blades. This creates a continuous motion that ensures even and thorough mixing. There is no more manual stirring or shaking - the Wave Action System does the work for you and ensures that all ingredients are perfectly mixed.

Reliable sensors check that the lid is closed properly and that the container is positioned correctly. This prevents the appliance from being activated.

No more restrictions on ice cube size: unleash your creativity and enjoy the unlimited possibilities offered by a versatile bar mixer.

No leaks, no spills: A worry-free mixing experience thanks to the triple sealing rings on the lid.

Version

High performance blender

Made by Hamilton Beach, USA

For professional use in the catering sector
